ABOUT ME

I'm a result oriented frontend developer with experience in creating SPA, using React(JS/TS), Redux, HTML & CSS. After working as a freelancer, I would like to find a project work/full-time job in a creative company with up-to-date tasks and collaborative team! I'm keen on solving katas on codewars (my codewars) and learning IT.

WORK EXPERIENCE

October 2020 Front-end developer, freelance

Creating SPA using React + Redux, react-router-dom, redux-thunk, reduxform, axios, formik, Material-UI . Work with Hooks, Typescript. Refactoring, bug fixing, migrating from Javascript to Typescript, registration and login forms creation, custom components development, jest testing.

2016-2020 sales manager (SpesBetonStroy)

2007 - 2016 operator at the concrete mixing station (SpesBetonStroy)

EDUCATION

2004 graduated from **Donbas Mining-Metallurgical Institute** (DMMI) with a degree in electronic systems engineering.

2020 It-incubator (React/Redux/TypeScript)
